MARKET BACKGROUND

Indian EV Market Background

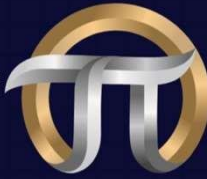

Key Drivers	Impact	Trends	Challenges
Consumer Demand	Full EV production by 2030.	Surging Demand	Charging Infrastructure
Technological Progress	investment in renewable energy	Diversified Options: Range of models	Ethical Concerns: Battery production
Government Support	Battery Technology	Battery Innovations	High Upfront Costs

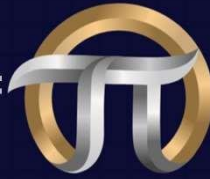

[India Electric Vehicle Market Size, Trends, Share 2032 - CMI \(custommarketinsights.com\)](https://www.custommarketinsights.com/)

[India Electric Car Market Size, Trends & Forecast Report \(psmarketresearch.com\)](https://www.psmarketresearch.com/)

MARKET ANALYSIS

Porter's Five Forces Analysis

Bargaining Power of Suppliers

- Supplier Diversification and Specialized component suppliers- increased costs and supply chain vulnerabilities
- Battery Manufacturers - significant influence
- Mitigating Factor - Building long-term relationships

New Entrants

- High Capital Requirement - Manufacturing facilities and R&D centres
- Regulatory Compliance - Safety standards and environmental norms
- Brand Loyalty - Existing brands with strong customer
- Government Support- Incentives and subsidies available for new entrants

Internal Competition

- High Competition - Both domestic and international
- Price Wars – Effects profit margin
- Innovation and Features – Increase competition in market
- Market Penetration - Marketing efforts and distribution network expansions

- Public Transport - Affordable option
- ICE Vehicles - EV infrastructure is lacking
- Technological Advancements - hydrogen fuel cells
- Low Cost and greater Convenience

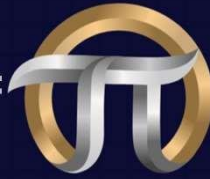

Substitutes

Bargaining Power of Buyers

- Price Sensitivity
- Differentiation of products – availability
- Informed Consumers / Consumers reviews
- Incentives - Government incentives and subsidies

PESTLE Analysis

Political

- Government Policies and Incentives
- Regulatory Environment
- Political Stability

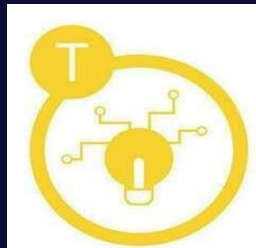

Economic

- Market Growth
- Cost of Production
- Consumer Purchasing Power

Social

- Consumer Awareness and Acceptance
- Urbanization
- Lifestyle Changes:

Technological

- Technological Advancements
- R&D and Innovation
- Infrastructure Development

Legal

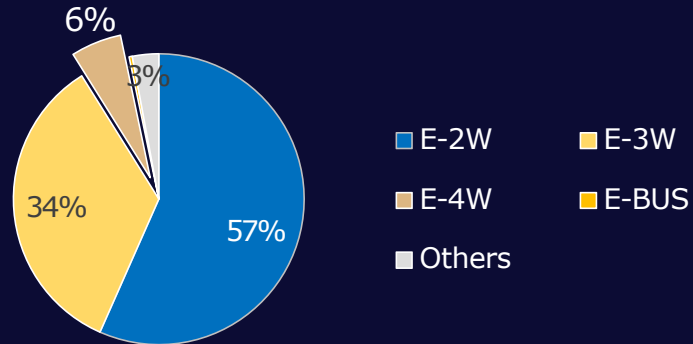

- Regulatory Compliance
- Intellectual Property Rights
- Employment Laws

Environmental

- Environmental Impact
- Sustainability Goals
- Resource Management

EV Market share in India

4W Leading brands

Sl No.	Makers	Jan-24	Dec-23	Difference	% Change	Market Share Jan-24
1	TATA MOTORS	5,543	5,001	542	11%	68.61%
2	MG MOTORS	1,152	988	164	17%	14.26%
3	MAHINDRA & MAHINDRA	740	682	58	9%	9.16%
4	HYUNDAI MOTOR	161	126	35	28%	1.99%
5	BYD 	148	174	-26	-15%	1.83%
6	BMW	145	177	-32	-18%	1.79%
7	MERCEDES -BENZ AG	56	84	-28	-33%	0.69%
8	VOLVO	49	62	-13	-21%	0.61%
9	KIA MOTORS	34	30	4	13%	0.4%
10	PCA AUTOMOBILES	28	52	-24	-46%	0.35%
11	Others	23	44	-21	-48%	0.28%
TOTAL		8,079	7,420	659	9%	100%

Top selling EV's in India

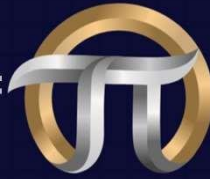

Feature	Top EV Car Models			
	Tata Nexon EV	Tata Tiago EV	Tata Tigor EV	MG Comet
Battery Capacity (kWh)	40.5	24	24	17.3
Range (ARAI) (km)	307	315	306	230
Motor Power (kW)	96	74.3	74.3	31.26
Top Speed (km/h)	120	125	125	100
Charging Time Fast (hrs)	0.8	1.1	1.1	Not Available
Charging Time Normal (hrs)	8	10.5	10.5	7

Government Initiatives: Union Budget

- 2023-24 Energy Transition: \$4.29 billion
- FAME-II Scheme: \$631 million subsidies
- Electrification Target: 50% by 2030, Tax Incentives, Charging Infrastructure

Drivers

- Technological innovation
- Environmental awareness
- Economic benefits
- Policy support

Marketing Focus as per Market Segment

Environmental Enthusiasts

- Highlight the zero-emission feature
- Environmental benefits
- Contribution to reducing air pollution

Channels

Eco-friendly forums, sustainability events, green certification endorsements

Urban Dwellers

- Showcase the vehicle's ability to navigate urban environments efficiently,
- Reduce noise,
- Compact design for easy parking.

Channels

Urban lifestyle magazines, city-based advertising, public transportation hubs.

Luxury Car Buyers

- Highlight premium features, luxury interiors, cutting-edge technology,
- Prestige of owning a high-end EV.

Tech-Savvy Consumers

- Emphasize the vehicle's innovative technology,
- Smart features,
- Connectivity options.

Channels

Technology blogs, Influencer marketing, Tech exhibitions.

Cost-Conscious Buyers

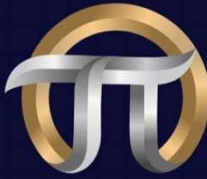

- Stress on the low running and maintenance costs,
- Government subsidies,
- Overall cost savings.

Channels

Budget-focused advertising, financial planning blogs, price comparison websites

Channels

High-end lifestyle magazines, luxury events, exclusive test drive experiences.

MARKETING OBJECTIVES AND STRATEGIES

1. Market Share

Objective:

Market share of 5% in the Indian EV market by end of 2024, with a goal of reaching 32% by 2028.

Strategies:

- Launching innovative EV
- Targeted marketing campaigns
- Forming strategic partnerships

2024

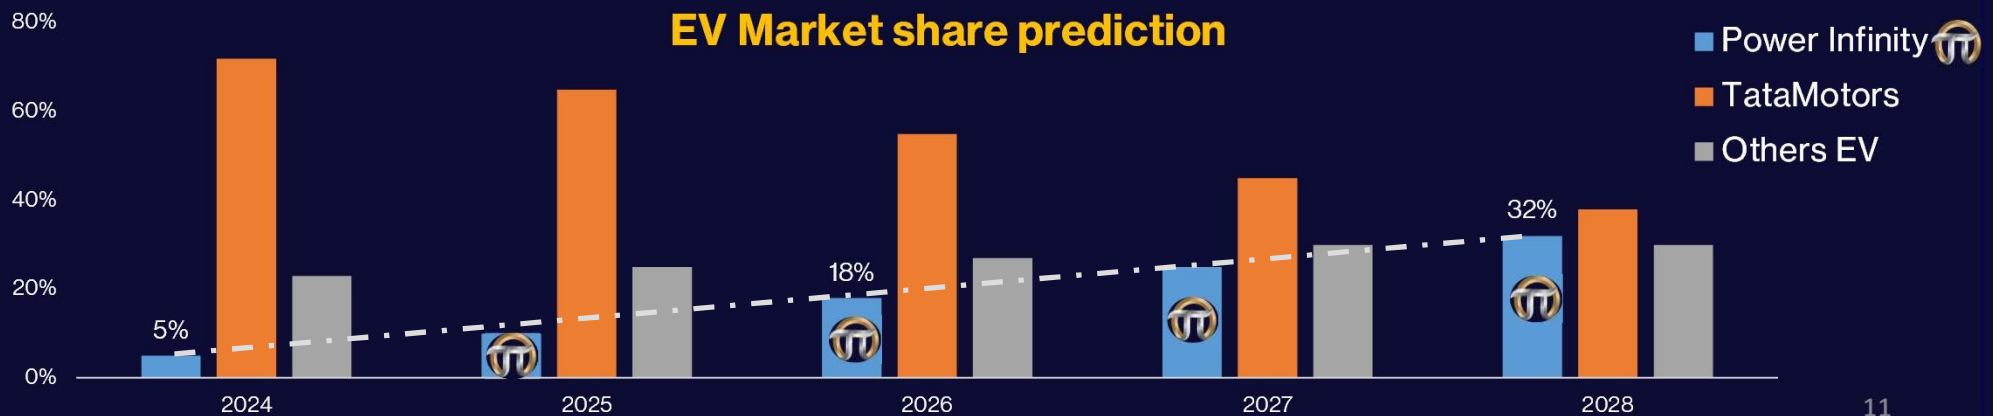

- Enhancing customer service
- Expanding the charging station in tire 2&3 Cities
- increasing the product lineup

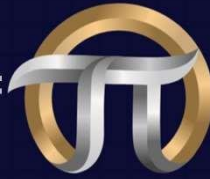

2026

- Product development
- Optimizing pricing strategies
- Maintaining a strong brand presence

2028

EV Market share prediction

2. Brand Awareness

Objective:

Increase brand awareness to 15% of the target market by the end of 2024, with a goal of reaching 70% by 2028.

Strategies:

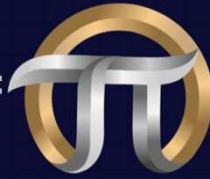

Major competitor challenge:

Tata Motors

- Top automotive brand in India by YouGov (29.6 points)
- Extensive marketing campaigns
- Established market presence
- Digital and social media marketing strategies

Measures:

- Through market surveys
- Brand recognition studies

3. Customer Loyalty

Objective:

Attain a customer loyalty rate (measured by repeat purchase rate and customer satisfaction scores) of 5% by 2024, increasing to 30% by 2028.

Strategy:

- Exceptional after-sales service
- Expanding the service network
- Community engagement
- Innovative financing options

Measures:

- Repeat purchase rates of subscription model

4. Product Leadership

Objective:

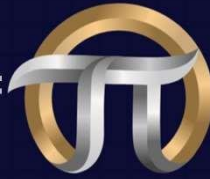

Develop a strong product leadership position, with at least 8% of the product portfolio being considered market-leading in terms of technology and innovation by 2024, increasing to 40% by 2028.

Strategy:

- Advanced features and technologies that are recognized as industry-leading
- Investing heavily in research and development
- Staying ahead of technological trends
- Continuous innovation

Measures:

- Industry recognition,
- Technology adoption,
- Innovation benchmarks

Brand Positioning

Address Range Anxiety	Robust charging infrastructure and long-range batteries
Highlight Cost Savings	Communicate long-term savings over ICE vehicles
Emphasize Sustainability	Zero emissions, recycled materials, lower carbon footprint
Leverage Technology	Cutting-edge features, connectivity, and over-the-air updates
Positioning Focus	Sustainable, eco-friendly brand with innovative ownership models

POSITIONING STATEMENT

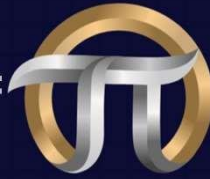

"Sustainable and eco-friendly, we offer budget-friendly, innovative ownership models. Our vehicles ease range anxiety with robust charging and long-range batteries, save costs over ICE vehicles, and feature zero emissions"

OUR VISION

"To lead the charge towards a sustainable future, where electric vehicles are synonymous with efficiency, performance, and environmental responsibility. We aspire to shape the future of mobility, driving progress towards a Power Infinity"

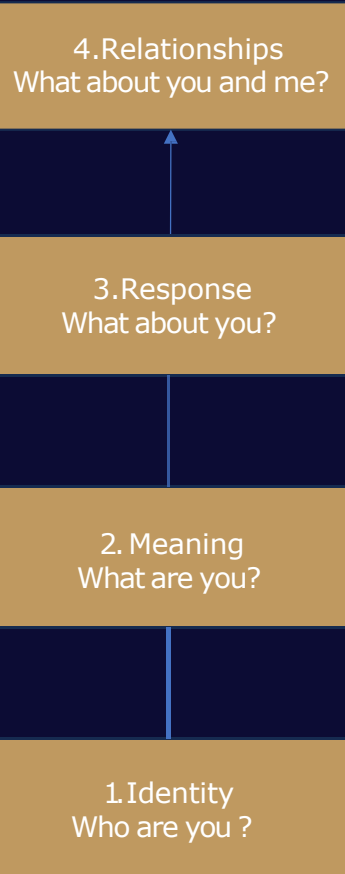

OUR MISSION

"To revolutionize the automotive industry by crafting innovative electric vehicles that transcend traditional boundaries of power and sustainability. We are committed to inspiring a greener tomorrow through cutting-edge solutions and empowering individuals to embrace the future of transportation"

Official Finance partner for Pi charging stations

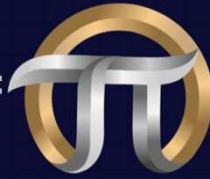

- More than 18,836 retail store locations
- More than 50% in metro cities

KFC INDIA

- Total Outlets 852+
- Across 249 Cities

PROMOTION

Promotion

Advertising

- Digital Advertising
- Television Advertising
- Print and Outdoor Advertising

Public Relationship programs

- Engage with Influencers
- Press Releases and Media Events
- CSR Initiatives

Sales Promotion

- Discounts
- Financing Options
- Referral Programs

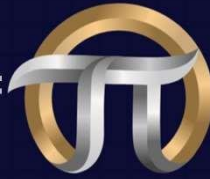

Digital Marketing

- Targeted Advertising and Personalization
- Higher Engagement and Interaction

■ Cost-Effectiveness

- Measurable and Adjustable
- Growing Internet and Mobile Penetration
- Consumer Behaviour and Trends

■ Social Media Influence

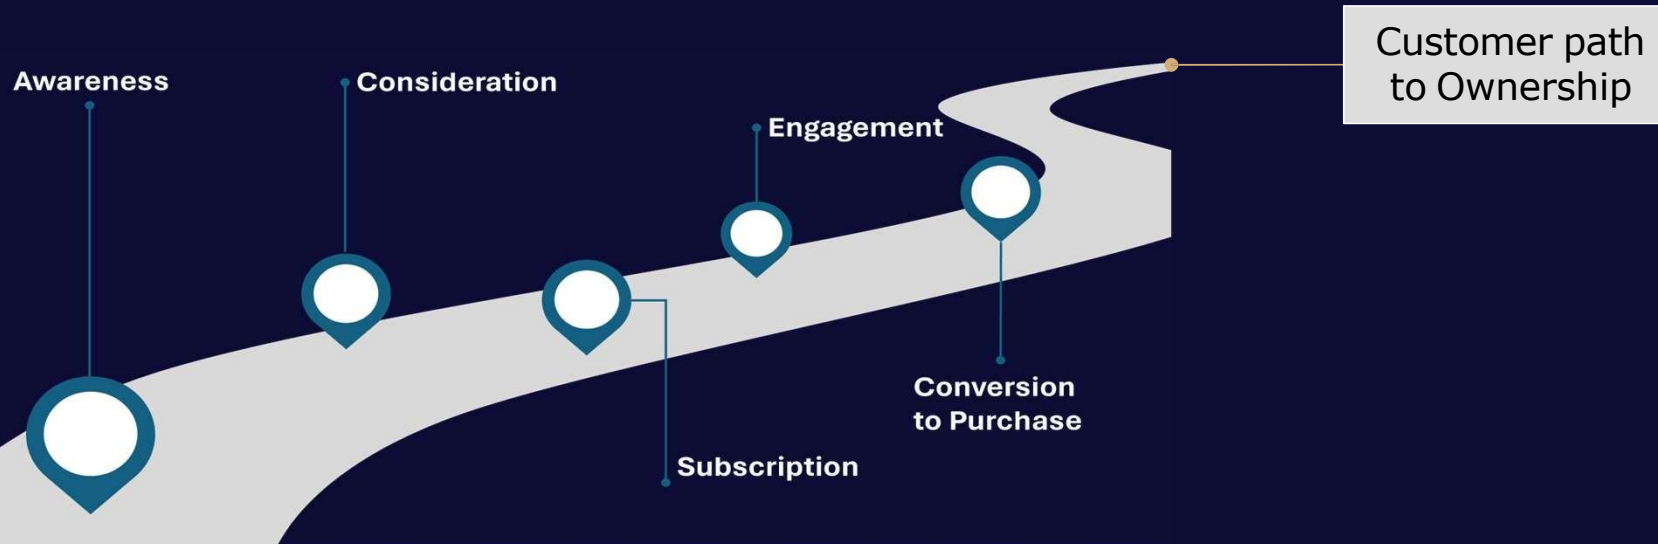

SUBSCRIPTION MODEL WITH A PATH TO OWNERSHIP

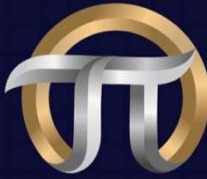

Test Drive Subscription

- Offer one-week subscription as test drive at reasonable price
- Follow up with customers to gather feedback and awareness,
- Potentially converting test drives into long-term subscriptions

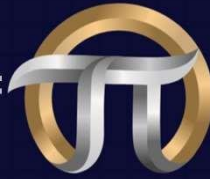

Monthly Subscription Plans

- Target Audience: Middle class family and GenZ
- Features: Limited mileage (500km/month), Insurance, Access to services
- Offer: portion of the subscription fee as credit towards the eventual purchase of the vehicle.
